

Mid-term student course evaluation: Constructive statements

Course: Class time:

Instructor: Date:

The purpose of this evaluation is to help improve the course, how it is taught, and therefore to help you improve your learning. I will report back to the professor on the feedback I receive. For the first section, please check all that apply. If you like the way the professor does something, but you would like them to do it even more often, you can check both columns.

I like the way the Instructor:

- Gives an introduction at the start of class
- Balances lectures and discussion
- Clarifies the objective of each class
- Clearly indicates transitions from one topic to the next
- Summarizes the main points
- Utilizes visual aids effectively
- Discusses concrete/ real-life examples
- Encourages students to ask questions
- Responds effectively to questions
- Incorporates students' ideas into lecture
- Is open to different points of view
- Grades fairly
- Advises students on how to prepare for exams
- Provides feedback on exams
- Varies the pace according to the difficulty of the material

I would like the Instructor to:

- Give more introduction at the start of class
- Give less introduction at the start of class
- Lecture less / Discuss more
- Lecture more / Discuss less
- Clarify the objective of each class more
- More clearly indicate transitions from one topic to the next
- Summarize the main points more often
- Utilize visual aids more effectively
- Discuss more real-life examples
- Encourage students to ask more questions
- Respond more effectively to questions
- Incorporate students' ideas into lecture
- Be more open to different points of view
- Grade more fairly
- Advise students on how to prepare for exams
- Provide more feedback on exams
- Varies the pace according to the difficulty of the material

SEATTLE UNIVERSITY

For the second section, please provide your thoughts and opinions on the following questions. Please make your feedback as concrete, constructive, and specific as possible. By being specific, you can help me change the course to meet your needs.

1. What contributes most to your learning?

2. What specific suggestions do you have for improving your learning in the course?

3. What specific suggestions do you have for improving the class discussions?
