Agenda

Calling of the Roll

Announcements

New Business

Academic Affairs

Information Items

1. When you view the Engineering Technology proposals, please keep in mind that an Articulation Agreement with Pellissippi has already been signed detailing the Curriculum APSU has agreed to offer.
2. Due to recent state legislation, Universities are required to state “accept Sign Language as a Foreign Language for Admissions requirements”. We have provided a handout from the bulletin of where those requirements would be located.

Provost Gandy called for any questions or concerns regarding the information items and there were none.

Action Items

3. Policy 2:001 Curricular Development and Modification Approval

Reviewed the policy and discussed the changes to the certificates. Provost Gandy discussed how this was brought previously and denied but that Trustee Don Jenkins had requested the short certificates not come to the Board of Trustees.

Motion passed unanimously

College of Arts and Letters

Department of Communication

Undergraduate Revise Course – Final approval required from Provost/VP Academic Affairs

4. COMM 2000 – Media Writing Implementation Fall 2019
 - Name and Description change

5. COMM 2170 – Introduction to Sports Communication	Implementation Fall	2019
---	---------------------	------

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

6. COMM 3620 – Weather Broadcasting	Implementation Fall	2019
7. COMM 4790 – Non-Linear Editing	Implementation Fall	2019

Undergraduate New Course – Final approval required from Provost/VP Academic Affairs

8. COMM 2160 – Professional Communication Production	Implementation Fall	2019
9. COMM 3610 – Multimedia News Reporting	Implementation Fall	2019
10. COMM 3920 – Writing for Professional Communication	Implementation Fall	2019
11. COMM 3925 – Corporate Social Responsibility	Implementation Fall	2019
12. COMM 4000 – Editorial & Opinion Writing	Implementation Fall	2019
13. COMM 4700 – Magazine Production	Implementation Fall	2019
14. COMM 4710 – New Journalism	Implementation Fall	2019
15. COMM 4950 – Convergence Journalism Capstone	Implementation Fall	2019
16. COMM 4995 – Convergence Media Capstone	Implementation Fall	2019

Undergraduate Program Modification – Final approval required from the University President

17. Communication Arts	Implementation Fall	2019
------------------------	---------------------	------

- a. Elevate the Media Technology concentration to a stand alone degree program
 - i. The name of the program is proposed to be Communication Media
 - ii. This would encompass concentrations in Journalism, Broadcast Media and Sports Communication
- b. Terminate the Media Technology concentration
- c. Terminate the Internet Technology Concentration

Undergraduate Program Modification – Final approval required from Provost/VP Academic Affairs

18. Communication Arts	Implementation Fall	2019
------------------------	---------------------	------

- a. Major Name change to Professional Communication
- b. Concentration name change from Sports Broadcasting to Sports Communication; includes curriculum modifications
- c. Curriculum Changes for Information Specialist concentration
- d. Concentration Name change for Print and Web Journalism to Journalism; includes curriculum modifications
- e. Curriculum Modification for Public Relations concentration

After Tracy Nichols gave an overview of the changes that Communication was attempting to make to assist with their required program accreditation, Dr. Gandy made a motion to group all items from 4 to 18E together

for one vote. There were no objections to the grouping. There were no questions or concerns regarding any of the course deletes, additions, revisions, program modifications or elevation of concentration.

Motion passed unanimously

Department of Honors

Undergraduate New Course – Final approval required from Provost/VP Academic Affairs

19. HON 1000 – Introduction to University Life	Implementation Fall	2019
20. HON 1045 – First Year Honors Seminar	Implementation Fall	2019
21. HON 2220 – Confronting the Other	Implementation Fall	2019
22. PELP 1000– Freshman Seminar	Implementation Fall	2019
23. PELP 1020 – Argument and Persuasion	Implementation Spring	2019

Provost Gandy linked items 18 through 21 with no objections. Dr. Winters explained three of these courses were for the Honors program and two are for the PELP program. Dr. Winters is reconstructing the Honors program to get more function on critical reading and writing in the first year seminar. The HON 1000 and PELP 1000 courses will replace the APSU 1000 for Honors and PELP students. These courses will have more substance than the traditional APSU 1000. PELP rubric (prefix) will assist with alleviating confusion for students because of the use of the LDSP rubric (prefix).

Margaret Rennerfeldt asked a question regarding the alignment of the two 1000 courses and Dr. Winters explained the students in these courses write a global issues paper but the remainder of the content is the same. PELP has a little more depth to it as they have a specific assignment in defining leadership and outside speakers are brought in to discuss successful and failed leadership.

Motion passed unanimously.

Department of Music

Undergraduate Program Modification – Final approval required from the University President

- | | |
|---|----------------------------|
| 24. BM Music termination of concentrations | Implementation Spring 2019 |
| a. Remove the Music Performance concentration – specific performance concentrations developed | |
| b. Remove the Music Education concentration – specific education concentrations developed | |

Dr. Sienkiewicz explained that last year they brought the proposal through to remove specializations and make them concentrations. These proposals are to alleviate the now replaced concentrations of performance and education. Both items were linked with no objection.

Motion passed unanimously.

Department of Theatre and Dance

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

25. THEA 1880 – Theatre Performance Practicum Implementation Spring 2019

Undergraduate Program Modification – Final approval required from Provost/VP Academic Affairs

26. BA Theatre and Dance Implementation Fall 2019

- Addition of THEA 4660 as an acceptable elective

27. BFA Theatre and Dance Implementation Fall 2019

- Addition of THEA 4660 as an acceptable elective

All Theatre items were linked together with no objections. Dr. Beeson explained that last year they received approval for the course but it was not added to the Curriculum of the program. The program modifications add that course as an elective. The deletion is a duplicate course.

Motion passed unanimously.

College of Behavioral and Health Sciences

Department of Health and Human Performance

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

28. HHP 4444 – Cultural Context of HHP Implementation Spring 2019

Undergraduate New Course – Final approval required from Provost/VP Academic Affairs

29. HHP 2251 – Health Education Professions Orientation Implementation Fall 2019

30. HHP 2700 – Introduction to Sport Management Implementation Spring 2019

31. HHP 4801 – CHES Exam Preparation Implementation Fall 2019

32. PHED 2000 – Beach Volleyball Implementation Spring 2019

Graduate Course Delete – Final approval required from Provost/VP Academic Affairs

33. HHP 5620 – Admin Perspective of Disease Implementation Spring 2019

All HHP proposals were linked together with no objections. They are adding some courses to assist with exam preparation and to give students more time in the Health Education field. Beach volleyball was added since APSU just added the sport.

Motion passed unanimously.

Department of Leadership and Organizational Administration

Undergraduate Program Modification - Final approval required from the University President

34. Leadership and Organizational Administration

Implementation Spring 2019

- Initiate a new concentration in Organizational Administration

This change adds the final concentration where the department began transforming the major last semester. This concentration closes the loop and assists with adding greater clarity and reduces confusion. There are no new requirements. All courses have been offered previously.

Motion passed unanimously.

Department of Psychological Science and Counseling

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

35. PSY 4620 – Special Topics

Implementation Spring 2019

36. PSY 4630 – Special Topics

Implementation Spring 2019

37. PSY 4642 – Research Experience

Implementation Spring 2019

38. PSY 4643 – Research Experience

Implementation Spring 2019

39. PSY 4650 – Special Topics

Implementation Spring 2019

40. PSY 4660 – Special Topics

Implementation Spring 2019

41. PSY 4670 – Special Topics

Implementation Spring 2019

42. PSY 4680 – Special Topics

Implementation Spring 2019

Items 35-42 and 45-48 were all linked as they are course deletes. These proposals are a result of housekeeping to clean up duplicate course titles and replace the courses with one course that is variable and repeatable.

Motion passed unanimously.

Undergraduate/Graduate Revise Course – Final approval required from Provost/VP Academic Affairs

43. PSY rubric change to PSYC for all courses

Implementation Fall 2019

44. PSY 1010- General Psychology

Implementation Fall 2019

- Change number to PSY 1030- Introduction to Psychology
- **Course name change to align with TTP agreement**

To assist with complying with APSU's participation in the TTP's, APSU was asked to align PSY 1010 with other schools and that meant a change to the rubric (prefix) and course name. Instead of just having one PSYC course, the department opted to change the rubric for all PSY courses to PSYC.

Motion passed unanimously.

Graduate Course Delete – Final approval required from Provost/VP Academic Affairs

45. PSY 6060 – Seminar Selected Topics	Implementation Spring 2019
46. PSY 6080 – Seminar Selected Topics	Implementation Spring 2019
47. PSY 6090 – Seminar Selected Topics	Implementation Spring 2019
48. PSY 6100 – Seminar Selected Topics	Implementation Spring 2019

Department of Sociology

Undergraduate Revise Course - Final approval required from Provost/VP Academic Affairs

49. SOC 4910 – Senior Capstone	Implementation Spring 2019
• Change hours from 3 to 2	

This item is to assist with making the Bachelor of Science in Sociology degree exactly 120 semester credit hours. They pulled the resume portion out of the SOC 4910 course and made it into a 1 credit hour course. This change made the degree require 121 hours. In order to keep it consistent they proposed to change the capstone to a 2 hour course.

Dr. Ogbonna-McGruder asked why a 120+ hour degree is problematic. Dr. Brown indicated the issue is marketing.

Motion passed unanimously.

School of Nursing

Graduate New Course – Final approval required from Provost/VP Academic Affairs

50. NURS 5005 – Advanced Pathophysiology	Implementation Spring 2019
51. NURS 5006 – Advanced Pharmacology	Implementation Spring 2019
52. NURS 5007 – Advanced Health Assessment and Clinical Reasoning across the Lifespan	Implementation Spring 2019
53. NURS 5008 – Advanced Health Assessment and Clinical Reasoning across the Lifespan Lab	Implementation Spring 2019
54. NURS 5100 – Transition to Graduate Nursing Practice	Implementation Spring 2019
55. NURS 5106 – Healthcare policy with an emphasis on prevention and Population health	Implementation Spring 2019
56. NURS 5107 – Scientific Inquiry	Implementation Spring 2019
57. NURS 5107 – Advanced Role Development w/emphasis on Quality, Safety, and Ethics	Implementation Spring 2019

58. NURS 5611 – Advanced Adult Health Nursing	Implementation Spring 2019
59. NURS 5612 – Advanced Pediatric Nursing	Implementation Spring 2019
60. NURS 5613 – Advanced Women’s Health and Perinatal Nursing	Implementation Spring 2019
61. NURS 5614 – Advanced Psychiatric Mental Health Nursing	Implementation Spring 2019
62. NURS 5701 – Advanced Family Practice I	Implementation Spring 2019
63. NURS 5702 – Advanced Family Practice II	Implementation Spring 2019
64. NURS 5719 – Nursing Education Practicum	Implementation Spring 2019
65. NURS 5801 – Primary Care Practicum I	Implementation Spring 2019
66. NURS 5802 – Primary Care Practicum II	Implementation Spring 2019
67. NURS 5809 – Family Practice Residency	Implementation Spring 2019
68. NURS 5901 – Capstone I	Implementation Spring 2019
69. NURS 5902 – Capstone II	Implementation Spring 2019
70. NURS 5992 – Advanced Nursing Role Independent Study	Implementation Spring 2019

Items 50- 70 were all linked together. Dr. Robertson explained that these courses were only new in the sense that APSU is ceasing collaboratively offering nursing through the TN eCampus and to teach out the students currently enrolled, we need to have a separate numbering system.

Motion passed unanimously.

Graduate Program Modification – Final approval required from Provost/VP Academic Affairs

71. Family Nurse Practitioner Certificate	Implementation Spring 2019
<ul style="list-style-type: none"> • Updating requirements to new APSU versions of the NURS program • Removing Certificate from the curriculum of TN eCampus 	
72. Nursing Education Certificate	Implementation Spring 2019
<ul style="list-style-type: none"> • Updating requirements to new APSU versions of the NURS program • Removing Certificate from the curriculum of TN eCampus 	

Items 71 and 72 were linked together with no objections. Main difference is the course number and name changes. Reducing the number of hours by one semester credit hour in the Family Nursing Practitioner Certificate and 3 semester credit hours in Nursing Education. Reformulated the courses so that there is no separation in pediatrics, adult or women’s health. Decrease the clinical hours from 720 to 600. The School of Nursing is now bringing students to campus for intensives which requires additional face to face hours. Nursing Education certificate will decrease from 360 to 240 clinical hours.

Motion passed unanimously.

73. MSN Nursing Educator	Implementation Spring 2019
<ul style="list-style-type: none"> • Remove all MSN programs from TN eCampus • Update all course requirements to those numbers and description for the APSU course versions 	

- Change Nursing Education to Nursing Educator and modify Curriculum

74. MSN Nursing concentration Family Nurse Practitioner

Implementation Spring 2019

- Remove all MSN programs from TN eCampus
- Update all course requirements to those numbers and description for the APSU course versions
- Modify Curriculum

Items 73 and 74 were linked with no objections. Explained the differences were the same as the certificates.

Motion passed unanimously.

75. MSN Nursing concentration Administration

Implementation Spring 2019

- Inactivate concentration

Explained this will not be offered any longer.

Motion passed unanimously.

College of Business

Department of Management, Marketing and General Business

Undergraduate Program Modification – Final approval required from the University President

76. Termination of the General Business Concentration

Implementation Fall 2019

- Currently under the BBA Management major
- Offers less favorable employment prospects than other programs in the College of Business

77. Termination of the International Management Concentration

Implementation Fall 2019

- Currently under the BBA Management major
- Provides limited employment option for students

Both terminations for the College of Business were linked together with no objections. Dr. McCarthy explained that when they changed concentrations to a streamlined process, these were kept but are now being cleaned up to finish their process of enhancing the major.

Motion passed unanimously.

College of Science, Technology, Engineering and Mathematics

Department of Agriculture

Undergraduate New Course – Final approval required from Provost/VP Academic Affairs

- | | |
|--|----------------------------|
| 78. AGRI 3050 – Agricultural Leadership, Education and Communication | Implementation Spring 2019 |
| 79. AGRI 4920 – Special Problems II | Implementation Spring 2019 |

Both AGRI courses were linked together with no objections. Dr. Sudbrink explained AGRI 3050 is a brand new course that will assist students with gaining employment. The AGRI 4920 is not a new course but when they changed a course previously this course was terminated and they are reinstating the course.

Motion passed unanimously.

Department of Allied Health Services

Undergraduate Revise Course – Final approval required from Provost/VP Academic Affairs

- | | |
|---|----------------------------|
| 80. MTEC 4930 – Board of Certification Review | Implementation Spring 2019 |
| <ul style="list-style-type: none">• Making this a variable credit hour course 2-3• Prevents students from having an overload | |

Dr. Latchem presented that the department is making this course variable in the number of credit hours to assist with keeping students from going into overload. Students pursuing the Pre-Professional concentration do not have previous experience in the field and are therefore required to complete labs and clinicals for the Pre-Professional Program. Students who are pursuing the MLT to MLS degree already are practicing in the field and are not required to take the lab components as their previous credentials are utilized to fulfil these requirements.

Motion passed unanimously.

Department of Biology

Graduate Revise Course – Final approval required from Provost/VP Academic Affairs

- | | |
|---|----------------------------|
| 81. BIOL 5990 – Thesis | Implementation Spring 2019 |
| a. Addition of variable hours and repeatability | |

Dr. Pitts explained this course needs to be variable credit hours and repeatable.

Motion passed unanimously.

Graduate Course Delete – Final approval required from Provost/VP Academic Affairs

82. BIOL 5130 - Advanced Topics in Genetics	Implementation Spring 2019
83. BIOL 5131 – Advanced Topics in Genetics Lab	Implementation Spring 2019
84. BIOL 5910 – Seminar in Biology	Implementation Spring 2019

Items 82-84 were linked together with no objections. They are being deleted as they are duplicate course titles.

Motion passed unanimously.

Undergraduate Program Modification – Final approval required from the President

85. Bachelor of Science in Biology	Implementation Fall 2019
a. Delete Teaching Specialization as it will no longer be offered	

Dr. Pitts explained that they would be removing the specialization of teaching. Students who want to teach will complete the Biology major with the Professional Education minor.

Motion passed unanimously.

Department of Chemistry

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

86. CHEM 1000/1001 – Chemistry for General Education (and lab)	Implementation Spring 2019
87. CHEM 1310 – Introduction to Process Industries	Implementation Spring 2019
88. CHEM 3800 – Forensic Science	Implementation Spring 2019
89. CHEM 4800 – Forensic Chemistry Internship	Implementation Spring 2019

Items 86-89 were linked with no objections. Dr. Sullivan explained that CHEM 1000 had never been taught. CHEM 1310 was a course used for the CHET program and then CHEM 3800 and 4800 had been renumbered.

Motion passed unanimously.

Undergraduate Program Modification: Termination of Specialization – Final approval required from the University President

90. Deletion of Teaching Specialization in BS Chemistry	Implementation Fall 2019
---	--------------------------

Will not continue with the specialization. Dr. Ogbonna-McGruder asked why they could not have specializations and it was explained that they are not official programs. Students who want to teach Chemistry will pursue the Chemistry major and then could complete the MAT program for licensure.

Motion passed unanimously.

Department of Engineering Technology

Undergraduate Revise Course – Final approval required from Provost/VP Academic Affairs

*Changes are to align the course numbers with what is expected by AABI, the program accrediting body. This renumbering will place the courses in a better number sequence for completing the program.

91. AVI 1060 – Flight Navigation	Implementation Spring 2019
92. AVI 1100 – Rotor-Wing Private Pilot Lab I	Implementation Spring 2019
93. AVI 2000 – Instrument Flight Operations	Implementation Spring 2019
94. AVI 2020 – Commercial Flight Operations	Implementation Spring 2019
95. AVI 2100 – Rotor-Wing Private Pilot Lab II	Implementation Spring 2019
96. AVI 2120 – Instrument Flight Operations Lab I	Implementation Spring 2019
97. AVI 2140 – Instrument Flight Operations Lab II	Implementation Spring 2019
98. AVI 3060 – Rotor-Wing Aircraft Design	Implementation Spring 2019
99. AVI 3070 - Certified Flight Instructor	Implementation Spring 2019
100. AVI 3090 – Prime Mover Technologies	Implementation Spring 2019
101. AVI 3100 – Commercial Flight Operations Lab I	Implementation Spring 2019
102. AVI 3120 – Commercial Flight Operations Lab II	Implementation Spring 2019
103. AVI 3140 – Certified Flight Operations Lab I	Implementation Spring 2019
104. AVI 4000 – Certified Flight Instructor Instrument	Implementation Spring 2019
105. AVI 4020 – Night Vision Systems	Implementation Spring 2019
106. AVI 4040 – Mountain Flight Operations	Implementation Spring 2019
107. AVI 4100 – Certified Flight Instructor Lab II	Implementation Spring 2019
108. AVI 4120 – Certified Flight Instructor Instrument Lab	Implementation Spring 2019
109. AVI 4200 – Aviation Capstone	Implementation Spring 2019

Items 91-109 were linked without objection. Mr. Weigandt explained that the changes were in course numbers, prerequisites and descriptions to align with the requirements of the FAA.

Dr. Scanlan noticed on the form for AVI 3140 it was listed as 3 hours in one spot and 2 in the other. This change has been made on the form in Curriculog. The correct number of semester credit hours for AVI 3140 is 2.

Motion was passed unanimously.

Undergraduate Program Modification – Final approval required from Provost/VP Academic Affairs

110. Bachelor of Science in Aviation Science	Implementation Spring 2019
• Updating course numbers	

- Removing ENGT 1200 and 1400 as options
- Removing MATH 1810 and replacing it with MATH 1710

MATH 1730 and 1810 were originally required. However, the MATH 1810 is not a required prerequisite for the PHYS courses and labs so it did not make sense to require the students take a harder math than needed and they would get more benefit from the MATH 1710. Eliminated the ENGT requirements as they are not necessary to the curriculum. The ENGT 1200 course requires a vague prerequisite. The MATH courses were a better fit for the program.

Motion passed unanimously.

111. BS Engineering Technology Implementation Fall 2019

- Change ENGT courses to MET courses
 - The MET courses are all new courses which were created in the Spring of 2018, with an implementation of Spring 2019.
- Align the to meet TBR and Siemens corporation requirements

112. AAS Engineering Technology Implementation Fall 2019

- Change ENGT courses to MET courses
 - The MET courses are all new courses which were created in the Spring of 2018, with an implementation date of Spring 2019
- Allows APSU to accept students from 2 year schools without losing credit

Dr. Blake presented the Mechatronics concentrations. We have agreements with the community colleges to offer the Siemens certification courses. These require a specific amount of courses and curriculum and the proposals bring APSU into alignment with our agreement. The first and second level are for Siemens certification for the Associate Degree and then the other level fit in with the Bachelor degree.

Dr. Gandy suggested to Dr. Blake that they look into the BAS at UT Chattanooga and their core requirements.

Motion passed unanimously.

Department of Mathematics

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

113. MATH 490B – Selected Topics	Implementation Spring 2019
114. MATH 490C – Selected Topics	Implementation Spring 2019
115. MATH 490D – Selected Topics	Implementation Spring 2019
116. MATH 490E – Selected Topics	Implementation Spring 2019
117. MATH 490F – Selected Topics	Implementation Spring 2019
118. MATH 490G – Selected Topics	Implementation Spring 2019

All math deletions were linked with no objection. Dr. Sahi explained these are duplicate courses.

Motion passed unanimously.

Undergraduate Revise Course – Final approval required from Provost/VP Academic Affairs

119. MATH 4950 – Special Problems

Implementation Spring 2019

- Removal of the letter from the course number to align with other course numbers in department

This course has the letter A and it was decided to remove the letter to better align with the department numbering system.

Motion passed unanimously.

Graduate New Course – Final approval required from Provost/VP Academic Affairs

120. MATH 5230 – Interest Rate Models

Implementation Spring 2019

121. MATH 5800 – Differential Equations and Stochastic Analysis

Implementation Spring 2019

Linked new courses with no objection. Dr. Sahi explained these were to assist with the Mathematical Finance students.

Motion passed unanimously.

Department of Physics, Engineering, and Astronomy

Undergraduate Course Delete – Final approval required from Provost/VP Academic Affairs

122. CHET 1310 – Intro to Process Industries

Implementation Fall 2019

123. CHET 1320 – Intro to Process Operations

Implementation Fall 2019

124. CHET 2010 – Process Instrumentation

Implementation Fall 2019

125. CHET 2011 – Process Instrumentation Lab

Implementation Fall 2019

126. CHET 2020 – Process Troubleshooting

Implementation Fall 2019

127. CHET 2030 – Process Operations Management

Implementation Fall 2019

128. CHET 2100 – Fundamentals of Chemical Engineering

Implementation Fall 2019

129. CHET 2131 – Mechanical Systems Lab

Implementation Fall 2019

130. CHET 2140 – Quality Control

Implementation Fall 2019

131. CHET 2150 – Selected Topics in Chemical Industry

Implementation Fall 2019

132. CHET 2161 – Advanced Instrumentation Lab

Implementation Fall 2019

133. CHET 2190 – Chemical Industry Internship

Implementation Fall 2019

Items 122-133 were all linked without objection. Explained that the CET program does not exist anymore and these are no longer needed.

Motion passed unanimously.

134. PHYS 3750 – Laser Physics	Implementation Fall	2019
135. PHYS 3751 – Laser Physics Lab	Implementation Fall	2019

Items 134-135 were linked without objection. Dr. Oelgoetz explained these have not been taught in seven years.

Motion passed unanimously.

Undergraduate Revise Course – Final approval required from the Provost/VP Academic Affairs

136. ENGR 2110 – Statistics	Implementation Spring	2019
<ul style="list-style-type: none">• Updating prerequisite to PHYS 2110		
137. ENGR 2120 – Particles and Rigid Bodies	Implementation Fall	2019
<ul style="list-style-type: none">• Change in prerequisite• Ensure students have the appropriate level math• ENGR 2110 and MATH 1920 both with a “C” or better		

Items 136 and 137 were linked. They are prerequisites for lower level courses.

Motion passed unanimously.

138. ENGR 3005 – Advanced Engineering Mathematics III	Implementation Fall	2019
<ul style="list-style-type: none">• This course was split into three• ENGR 3003 and 3004 are proposed to be added (see next page New courses)• Updated title		

Item 138 and items 150 and 151 were linked without objection. Change in hours to ENGT 3005 as they are making it into multiple courses. Created ENGR 3003 and ENGR 3004 agenda items 150 and 151.

Motion passed unanimously.

139. ENGR 4000 – Introduction to Computational Engineering	Implementation Fall	2020
<ul style="list-style-type: none">• Prerequisite updates to align with splitting ENGR 3005 into three courses• ENGR 3004, MATH 3120 and CSCI 2000 all with a “C” or better		

Motion passed unanimously.

140. PHYS 1010 – Concepts: Motion, Heat & Sound	Implementation Fall	2019
<ul style="list-style-type: none">• Updating the title of the course to remove the duplicate title		
141. PHYS 1011 – Concepts Lab: Motion, Heat & Sound	Implementation Fall	2019
<ul style="list-style-type: none">• Updating the title of the course to remove the duplicate title		
142. PHYS 1020 – Concepts: Electromagnetism, Light & the Quantum World	Implementation Fall	2019

- Updating the title of the course to remove the duplicate title
143. PHYS 1021 – Concepts Lab: Electromagnetism, Light & the Quantum Implementation Fall 2019
World
- Updating the title of the course to remove the duplicate title

Items 140 through 143 were linked without objection. They are cleaning up the course titles. These courses are not prerequisites to each other.

Motion passed unanimously.

144. PHYS 2120 – University Physics II Implementation Fall 2019
- Modification to the course description
145. PHYS 2121 – University Physics II Lab Implementation Fall 2019
- Modification to the course description

Items 144 and 145 linked together without objection. They are cleaning up course descriptions.

Motion passed unanimously.

146. PHYS 3010 – Intermediate Mechanics Implementation Fall 2020
- Modification to the prerequisite
147. PHYS 3030 – Electricity and Magnetism Implementation Fall 2020
- Modification to the prerequisite
148. PHYS 3800 – Quantum Mechanics Implementation Fall 2020
- Modification to the prerequisite
149. PHYS 4000 – Computational Methods Implementation Fall 2020
- Modification to the prerequisite

Linked 146 through 149 without objection.

Motion passed unanimously.

Undergraduate New Course – Final approval required from the Provost/VP Academic Affairs

150. ENGR 3003 – Advanced Engineering Mathematics I Implementation Fall 2019
151. ENGR 3004 – Advanced Engineering Mathematics II Implementation Fall 2019

150 and 151 were linked to item 138

152. PHYS 4050 – Seminar Implementation Spring 2019
153. PHYS 4990 – Capstone Implementation Spring 2019

Items 152 and 153 were linked without objections. They are needed in the Bachelor of Science in Engineering (BSE) in Engineering Physics major and doing some assessment in these courses to teach co-curricular development.

Motion passed unanimously.

Undergraduate Program Modification – Final approval required from the Provost/VP Academic Affairs

- | | |
|--|--------------------------|
| 154. Bachelor of Science in Physics | Implementation Fall 2019 |
| <ul style="list-style-type: none">• Updating the Curriculum to account for the new courses | |

Dr. Oelgoetz presented two new PHYS courses 4050 and 4990. He proposes adding the courses to the BSE in Engineering Physics curriculum.

Motion passed unanimously.

| 156. Credit by Examination: International Baccalaureate: Physics | Implementation Fall 2019 |
|--|--------------------------|

Update to how the department would like for students credit to be awarded who have completed the International Baccalaureate examination. After reviewing other institutions, Dr. King identified new scores for accepting transfer credit based on this exam. A 5 would give credit for PHYS 2010/2011 and a score of 6 would give credit for PHYS 2010/2011 and 2020/2021. This would prevent students from simply receiving elective credit.

Dr. Scanlan stated he thought the acceptable score was previously a 4 to get elective credit and Dr. Oelgoetz explained that there would be no elective credit and this exam was not the same as the AP exam which was what Dr. Scanlan appeared to be referring to. This would strengthen the requirement and the change was made in alignment with what other institutions grant.

Motion was passed unanimously.

Erikson College of Education

Department of Education Specialties

Graduate Revise Course – Final approval required from Provost/VP Academic Affairs

157. EDUC 5200 – Evaluation of Teaching and Learning Implementation Fall 2019
- Updating course description to more accurately reflect the content of the course
158. EDUC 5611 – Educational Computer Applications Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
159. EDUC 5616 – Multimedia Creation Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
160. EDUC 5617 – Instructional Internet Use Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
161. EDUC 5618 – Visual Literacy and Design Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
162. EDUC 5621 – Instructional Video Design Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
163. EDUC 5625 – Digital Civics Implementation Spring 2019
- Name change from Maintenance and Management
 - Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
164. EDUC 6000 – Practicum in Instructional Technology Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties
 - Remove Prerequisite
165. EDUC 6005 – Instructional Technology Project Implementation Spring 2019
- Updating course description to more accurately reflect the content of the course
 - Updating the department to Education Specialties

Linked items 157 through 165 without objection. Dr. Chandler and Dr. Wall explained they are just adjusting the description to align with the times as they have not been updated in a long time. Dr. McGruder asked what they meant by updates. Dr. Chandler explained that as technology in teaching changes the courses have to be updated and were due for an overhaul. Margaret Rennerfeldt asked if it was just a change in description and Dr. Chandler confirmed this.

Motion passed unanimously.

Graduate Program Modification – Final approval required from the University President

166. MAT Teaching with concentration in Teaching English to Speakers of Other Languages

Implementation Spring 2019

- Adding as a concentration of Teaching English to Speakers of Other Languages (TESOL) due to local need and demand

Dr. Chandler and Dr. Wall presented this concentration as a request of the school system and students. A question was raised if these students would also still be eligible to earn the Graduate Certificate in TESOL and the response was students would be eligible to earn both the Graduate Certificate as well as the Master of Arts in Teaching in Teaching with concentration TESOL.

Motion passed unanimously.

Dr. Brooks asked Dr. Gandy about Policy 2:038 Undergraduate Admission Policy and Policy 2:010 Undergraduate Academic Retention Status as they relate to the SACSCOC Level Change.

Jasmine O'Brien explained these proposals were sent to Faculty Senate based on the required routing of Policies and had not yet been voted on at that level.

Dr. Brooks explained that it was recommended to have a policy on graduate as well as undergraduate admission. The easiest approach is to copy the admissions information from the Graduate Bulletin. There are no substantive changes to the policy as all information was previously included in the Graduate Bulletin but not the numbered policy.

Dr. Gandy explained that due to the Ed.D, APSU needs to make these changes for the February visit by a SACSCOC committee.

Dr. Gandy asked Jasmine O'Brien to send these policies to UCC in email no later than Tuesday, October 9 and then ask for a returned vote on Friday, October 12.

No other Business was brought up.

Meeting Adjourned at 3:39pm.
