

## District Collaborative

Summer 2021 – Spring 2023

### Current Sophomores/Rising Juniors

Rising juniors following this plan will have an opportunity to earn up to 60 college credits while in high school. This will give them an opportunity to earn an associate degree and their high school diploma at the same time. Below are the proposed courses for this program; please note that they are subject to change according to departmental scheduling. Note that courses in italics and bold may count for both high school and college credit.
