

## Connecting your LinkedIn Learning Account to your LinkedIn Profile

LinkedIn Learning accounts through APSU will be deactivated after June 29, 2021. If you connect your LinkedIn Profile with your LinkedIn Learning account, in the future, if you are to regain access to LinkedIn Learning, your learning history will remain tied to you and can be transferred to your future LinkedIn Learning account.

**Your learning history will not be available for viewing unless you receive access to a new LinkedIn Learning account.**

1. Login to your APSU LinkedIn Learning Account using your single-sign on information prior to July 1, 2021. Click on “Me” and then click on “Settings” in the dropdown menu.

2. Click “Connect my account”. You’ll be taken to the profile connection selection screen. Select “Continue with LinkedIn” and follow the prompts to ensure a seamless transition.
