Title of Your Research Paper:

Subtitle of Paper

First Name Last Name

Course Number and Name

Due Date (Month Date, Year Format)

Introduction

Leave two blank lines between the title and the first paragraph. The first sentence in each of your paragraphs is also indented. In author-date style, insert a citation whenever you need to show the source for something you wrote, or quoted in parentheses using just the author's last name and the year of the work (Smith 2022). Notice that there is no comma between the author's name and year. You can also include relevant page numbers, if appropriate or instructed by your professor, after a comma (Smith 2022, 15-16). Use et al. in parenthetical citations for four or more authors, using only the first author's last name, then et al., followed immediately by the year (Smith et al. 2022, 16).

Additional paragraphs should automatically indent, but if they do not, tapping the tab key should move the first line of your paragraphs one half inch. Also, the references page is set to automatically have a hanging indent. If you paste a citation there, be sure to select "match destination formatting" when presented with the clipboard icon, to keep these settings. Enjoy the template!
